

5th Grade! Enter the 2013
WATER...The Cycle of Life
Conservation Poster Contest!

Research, illustrate & explain:

- how hard surfaces have created an urban water cycle,
- how stormwater runoff causes soil erosion and water pollution, and
- ways we can better harvest & manage stormwater to let rain soak into the ground, and why it's important in protecting clean, abundant water!

Prizes:

Ribbons & Certificates for every 5th grade poster submitted!
Awards Dinner + Framed Certificate for Top Ten poster winners!
CASH AWARDS: \$100 1st Place, \$50 2nd Place, \$25 3rd Place
